Sir,

COMMUNITY PROJECTS - South Kanara - Fertilisers - Godown at Karkal - Shortage of Triple Super Phosphate - Cost writing o Report submitted.

Ref.1. report f Senior Inspector of Cooperative Societies, Karkal dated 8-2-1954.
2. Explanation of Senior Inspector dated 28-3-1954.

Shortage of two bags of fertilisers has been noticed by the Senior Inspector of Cooperative Societies, Karkal out of 75 bags handled by him at the godown at Karkal. The shortage is reported to be due to the taking of fertilisers in torn and damaged gunnies. Shortages are generally noticed in the case of fertilisers if kept for a long period due to its corrosive action. In the present case some quantity would have been lost in loading and unloading. A copy of explanation submitted by the Senior Inspector of Cooperative Societies, Karkal in reply to memo issued from this office is enclosed.

I request that the explanation of the Senior Inspector of Cooperative Societies, Karkal may kindly be accepted and the cost of shortage of two bags of fertilisers which comes to Rs.72-12-0

Copy of explanation dated 28-3-1954 submitted by the Senior Inspector of Cooperative Societies, Karkal to the Project Executive Officer, Mangalore in reply to memo Ref.1470/54-C dated 15-3-1954.

I submit that I have had handled 75 bags of Triple Super Phosphate out of which the deficit is two bags and comes to nearly 3% or 6 lbs in a bag of 227 lbs. As already reported almost all the bags were torn and damaged and even those bags which were good for appearance gave way when handled as the gunny bags are spoiled by corosive action of the manure. I actually did request the Special Agriculture Demonstrator to supply me with good bags, but he expressed his inability to do so. Hence, I have to take delivery of the same. Much was lost during loading and transporting due to the bad condition of the bags and there was further loss of weight as they remained unsold for a long period at the godown. It has been admitted that the deficit with regard to the Triple Super Phosphate is inevitable and the Project Executive Officer in his reference 2663-53-C dated 1-3-1954 has been pleased to permit the sale of fertilisers by actual weighment because of the deficiency that is inevitable due to its corosi action.

I had taken every care to reduce the deficit. I had even reported to the Project Executive Officer as early as in July about the state of the bags and requested him to permit, rebagging but no orders were passed on my report. Therefore I tried to dispose of the bags without weighing and only when it was found impossible to lift the bags I had to sell them by actual weighment as the dealers insisted on their being weighed.

The value of the deficit stock comes to Rs.12-12-0 and this deficit was inevitable as submitted by me already and not due to my carelessness. I request that this may not be recovered from me as I am in no way responsible for the deficit and I will be wronged for no fault of mine. I also request that the deficit may be written off.

(SD) A.M.GOWDA
SENIOR INSPECTOR OF COOPERATIVE SOCIETIES
KARKAL.

REf.C.No.346/54.

Submitted.

2. The explanation offered by the Senior Inspector of Cooperative Societies may be accepted. In future he may directed to take delivery of the fertilisers in reconditioned bags

Memo No. 70247 (A-I)/54-1 Dated 3

Sub:- CPS- Sankilakarara Project- Area - ~~Etc~~ Shortage in weight of chemical fertiliser.

Ref:- From the P.E.O. Mangalore, Ref Cor No. 1470/54 C 2357/54

~~—x—~~

The P.E.O. Mangalore is requested to furnish information on the following points very urgently:-

1) The total weight of L.T.S.P in the godown at Karkal from the beginning;

2) Whether any reweighment was made ~~of this fertiliser at any~~ time and if so, with what results,

3) ~~If any shortage was noticed earlier, the action taken by the P.E.O. there and there~~. How the value of the shortage is taken as Rs. 42/12/0 and ~~this must be treated as very urgent~~

KS 25654 (4) the percentage of shortage.

80/2560/54

24/8/54

NOTE:- Please see the letter and its enclosure from the P.E.O. Mangalore in the f. The particulars mentioned in the draft above may be called for. The draft above is subd for approval.

KS 25654

80/2560/54

Previously the D.A. reported in a similar case a percentage of shortage allowed in this dept. Pl. refer to that file of note

Subd

27/8/84

Under the top file the D.A. has reported that he has been empowered to write off the shortage in fertilisers upto 1% having regard to the quantity handled and the period of storage etc. and if the percentage of shortage exceeds 1% it is for the govt to accord sanction for writing off the shortage. In the circumstances, the percentage of shortage may also be called for from the P.E.O. The necessary addition has been made in the draft worksheet to provide for this also. For orders whether the draft order may issue

Government, Madras.

Enclosures: Ref.C.No. 1470/54-C dated 4--9--1954 195 .

Sir,

Community Projects--South Kanara--Shortage in weight of chemical fertilisers--Further particulars--Furnished.

Ref: Govt.Memo No.70247 Pub. (C.D.P.) V.54-1 dated 7-8-1954.

The particulars called for in para 1 to 4 of the Govt. Memo cited are furnished below:

1. The total weight of 75 bags of triple super phosphate is 17025 lbs.

2. No weighment was made while transporting the stock from Mangalore and the bags were not also recondicted. But issues at the godown were made on actual weighment and the bags were torn and deficit was noticed.

3. The value of shortage is Rs.72-12-0 (seventy two and annas twelve only) and not Rs.12-12-0 which is probably a type mistake in the fair copy.

4. The total shortage noticed is 454 lbs or 9 bags. The percentage of shortage works out to 2.7%.

I request that the shortage may kindly be ordered be written off.

Yours faithfully,

K K Shanmugam

Asst. Project Executive O

Public (R&B V) Dept.

No. MD. 10241 R&B V/54 | Sub:- CRs. Sankh Kanara Project Area. Supply of chemical Fertilisers. Shortage in weight & Writing off.

Ref:- From the P.E.O. (Sankh Kanara) Mangalore, 1470/54 C & 23.5.54 addressed as reference No. 70247 (R&B V) /54-1 & 3.6.54.

Ref 3 cf - From the P.E.O. Mangalore Ref. No. 1470/54-C & 4.9.54

On the letter ref 1-3 cf, the P.E.O. Mangalore has reported a certain shortage of fertilisers to the value of Rs 72.12.0 and requested that the amount may be written off. The case was again referred back to the P.E.O. for classification of the and the reply of The P.E.O. in ref 2 & cf re. total weight, percentage of shortage etc. may be perused.

The P.E.O. has reported that the total shortage noticed is 454 lbs which works out to 2.7 % The A.A has stated in another connection that the shortage usually written off by him is 1/.. and anything above that limit will have to be written off by Govt. The shortage is reported to be due to the leaking of fertilisers in torn & damaged gunnies. Such shortages are generally noticeable in cases of fertilisers if kept for a long period due to its corrosive action.

the P. E.O. has recommended explanation given by the Senior Inspect of Cooperative Societies (Marked which is at p 3 of may be accepted In these circumsta to issue orders whether the shortage may be written off or the case may be re to the D.A. [illegible] for remarks.
